Project: Wrangle and analyze “WeRateDogs” Data

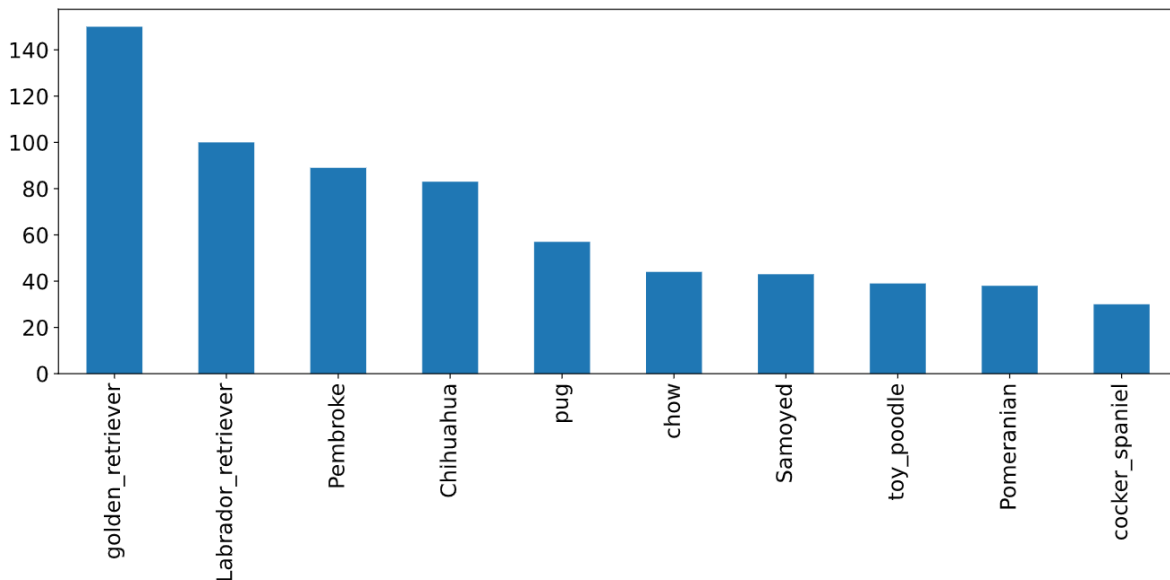

If you are interested in Dogs, we have some answers for some questions you might have about dogs and these questions was the motivation for why I came up with this analysis.

- 1) What are the most Popular Dog Breeds?**
- 2) What is the most common dog name?**
- 3) What is the most common stage of dogs?**
- 4) What is the average rating numerator value?**
- 5) What is the most common hour to tweet?**

As I am data analyst, I have some findings about dogs which I came up with it by analyzing the famous dog-rating Twitter account @weratedog tweets information, the tweets are only limited to period of time between 11-2015 to 08-2017 and its include around 2000 tweets .

Below are the answers for the question:

- 1) We can see from below chart that the most popular dog breeds are "golden retriever".

- 2) The most name that I can say that the owners of dogs call them on their dogs is "Charlie" , "Lucy" , "Cooper".
- 3) The most common stage of dogs I can see in the tweets is "Pupper".
- 4) The account rates people's dogs with humorous comment about the dog, the denominator is equal to 10 and the numerator is larger than the denominator, however I found that the common rating number was 12/10.
- 5) The tweets are published during the day, but the peak hours are around 1 AM plus and mins 3 hours, around 3 PM plus and mins 3 hours.
